C. P. R. General Grain Agent Issues Statement Giving by Provinces Estimates of Yield of Various Grain Crops—Scores Proposal to Establish Sample Markets

Winnipeg, Sept. 24.—The Canadian Pacific Railway's general grain agent, Thomas Atchison, tonight issued his estimate of the 1913 crop of the Canadian prairie west.

Mr. Atchison, who is personally engaged in farming operations in the western provinces, and who has had facilities for securing a very intimate knowledge of wheat production, transportation and marketing, discussed several phases of this important subject. He commented adversely on the proposal to establish a sample market, and declared that the Canadian Pacific would have been paralyzed in its operations by this time if the proposal had been in effect.

He stated that the amount of fall plowing which would be done this year, as compared with that of 1912, would in all probability, be sufficiently large large as to add 20,000,000 backets to the crop of 1914. He also referred to the slow movement of the crop by boat from the head of the lakes and stated that this was at the present time the only cloud on the horizon.

#### Learn the New Dances at Home with the Victrola

Nothing has done more to increase the popular ty of the new dances than the Victro a. Without it they would be merely local with the pace where they origina ed or confined to the large c nt es. W th it they have become National and International and are known wherever people dance.

If you haven't a Victrola, get one now, and see how easy it is to learn the new dances when they are played as the Victrola plays them-with full orchestra or band and in perfect time.

Call at any "His Master's Voice" dealer in any City in Canada and let him play the Victrola for you. Victrolas cost from \$20 to \$300 and are sold on easy payments (as low as \$1 per week) if desired. Victor records are 90c for 10 in. double aided. Ask for our Catalogue listing over 50:00 records.

KING GEORGE NAVY PLUG CHEWING TOBACCO

IS IN A CLASS BY ITSELF!

It surpasses all others in quality and flavour because the process by which it is made differs from others.—It is deliciously sweet and non-irritating.
